FUNCTIONAL FLOODLIGHTS

REMOTE CONTROL FOR FLOODLIGHTS

The ONfield Control system allows to **manage light switching via an easy-to-use PHONE APP**, create independent scenes and regulate the luminous flux.

Milan XXL

max. **460 W** **48,960 lm**

Milan XL

max. **250 W** **24,480 lm**

Milan M

max. **140 W** **12,240 lm**

Milan S

max. **80 W** **6,120 lm**

RGBW FLOODLIGHTS

REMOTE CONTROL FOR RGBW FLOODLIGHTS

The ONfield Color system allows to **manage the colour of the floodlight via an easy-to-use PHONE APP**, individually or as a group up to 10 floodlights.

Milan XXL RGBW

max. **460 W** **48,960 lm**

Milan XL RGBW

max. **250 W** **34,250 lm**

Milan M RGBW

max. **140 W** **19,040 lm**

SPORTS FLOODLIGHTS

REMOTE CONTROL FOR FOOTBALL FIELDS

The ONfield Control system allows to **manage light switching via an easy-to-use PHONE APP** and create scenes to light only a part of the sports field.

Apolo XL

max. **1.500 W** **185,000 lm**

Apolo L

max. **1.000 W** **127,000 lm**

Apolo M

max. **500 W** **65,000 lm**

INDUSTRIAL FLOODLIGHTS

Ufo XL

max. **150 W** **21,150 lm**

Ufo

max. **100 W** **14,100 lm**

EMBEDDABLE FLOODLIGHT

Gas

max. **120 W** **16,920 lm**

Fusion L

max. 240 W 33,600 lm

Fusion M

max. 120 W 16,800 lm

Fusion S

max. 40 W 8,443 lm

new luminaire

FUSION

- The only one that can be opened, closed and **DISASSEMBLED** without tools.
- **+33% of dissipation** compared to competing products of the same size.

Milan XXL

max. 300 W 42,000 lm

Milan XL

max. 150 W 21,000 lm

Milan M

max. 100 W 14,066 lm

Milan S60

max. 60 W 8,440 lm

Milan S40

max. 40 W 5,560 lm

REMOTE CONTROL SYSTEM FOR AN ON DEMAND CONSUMPTION

Thanks to the ONfield SENSOR system we sensorise and **connect several luminaires between each other to react when there is a person or vehicle by increasing their luminous flux before they arrive**, resulting in savings up to 90%.

1. Ready for: C-node communication node | IoT Light RF node.
2. Connector designed to include a communication node. (Zhaga or Nema).
3. DALI2 (D4i) driver compatible with NLUX remote control systems.
4. Connector designed to include a presence sensor. (Zhaga).
5. Ready for: P-Sense presence sensor.

With state-of-the-art
LEDs and ONFIELD
SENSOR system
90% of savings
